

SLACK & NOTION

Objective

By completing this task, you will learn the basics of **Slack and Notion** and how to connect them with **n8n** to build practical business automations.

*You have **until tomorrow** to complete all tasks.*

SLACK

Slack is a **team communication and collaboration platform** think of it as a more organized, work-focused alternative to WhatsApp or Messenger.

Example: MATalogs

You could create a Slack workspace called **MATalogs** and have:

- #general → company-wide announcements
- #development → developers discussing code
- #marketing → campaigns, ads, content
- #ai-automation → n8n, Zapier, AI-agent discussions
- #sales → leads and sales updates
- #interns → internship communication

Important concepts

Slack concept	What it means
Workspace	Your organization's Slack environment
Channel	A dedicated conversation/topic
Thread	Replies under a specific message
DM	Private message to someone
File sharing	Share documents, images, code, etc.
Apps	Connect Slack with other tools
Notifications	Get alerts for important activity

Watch this video for understanding and learning Slack

<https://youtu.be/hJzgnaiLNkk?si=Mag8-m0Qwiaxaj42>

Learn Slack

Understand:

- What Slack is
- Workspaces

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!

- Channels
- Threads
- Direct Messages (DMs)
- Notifications
- File sharing
- Slack Apps & Integrations

TASK

1. Slack for Notifications

Subtasks

1. Create a Slack Workspace.
2. Create Channels:
 - #n8n-alerts
 - #client-updates
 - #internship
 - #workflow-errors
 - #project-status
3. Connect Slack to n8n.

Explore each channel and understand how messages, threads, mentions, and notifications work.

2. n8n Automation Workflows

Workflow 1: Task Creation

New task added in Notion → n8n Trigger → Slack Notification

Workflow 2: Client Onboarding

New client added in Notion → Create Slack Channel → Notify Team

You should understand:

- Slack credentials
- Authentication
- Sending messages from n8n
- Selecting a Slack channel
- Mapping dynamic data into Slack messages

NOTION

Notion is an **all-in-one workspace** for notes, documentation, databases, project management, and team collaboration.

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!

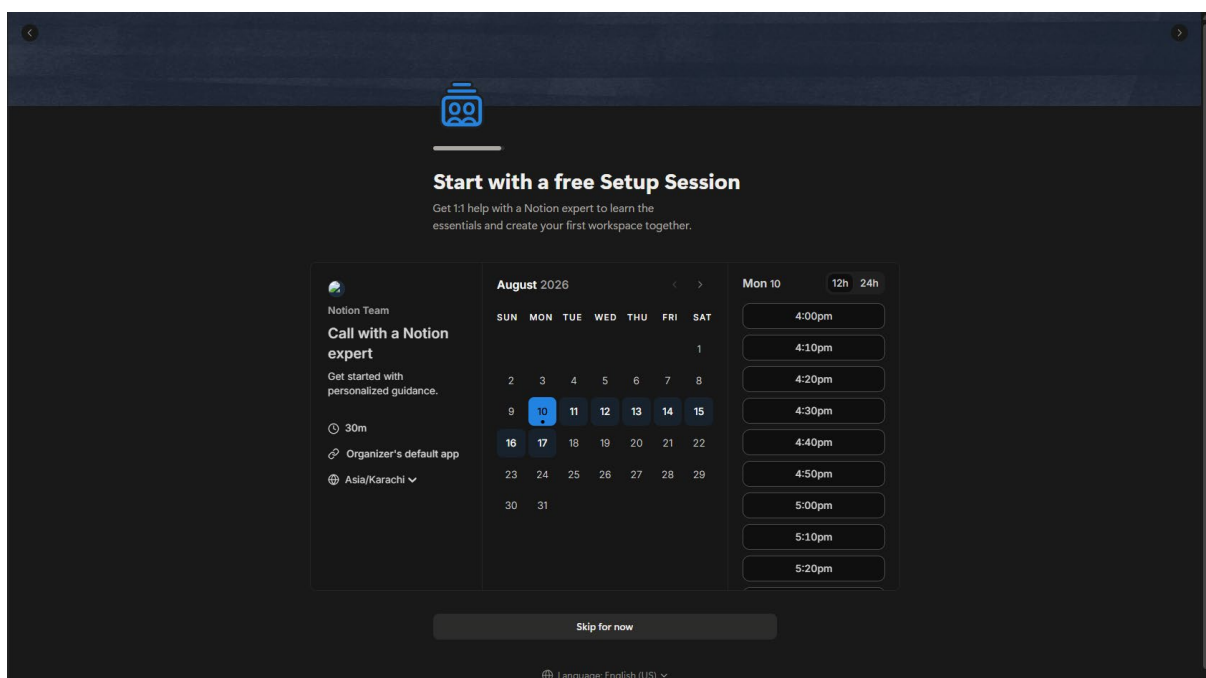

Think of it as combining **Google Docs + Trello + Excel/Google Sheets + Wiki** into one platform.

Important Notion Features

Feature	What it does
Pages	Create documents, notes, guides, etc.
Blocks	Building pieces such as text, images, headings, videos
Databases	Store and organize structured information
Views	Show the same database as table, board, calendar, timeline, etc.
Templates	Create reusable page/database structures
Collaboration	Multiple people can work together
AI	Summarize, write, search and work with information
Integrations	Connect Notion with other applications

IMPORTANT

- *You can get the free account if you have a work email.*
- *You can select your Free Setup Session time, to learn the essentials and create workspace Together with Notion Expert.*
- *Do not create multiple accounts unnecessarily. Use your existing account if you already have one.*

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!

Learn Notion

Understand:

- Pages
- Blocks
- Databases
- Database properties
- Views
- Templates
- Filters & sorting
- Relations
- Collaboration
- Integrations
- Notion AI

Watch these video to have a basic idea what is notion:

<https://www.youtube.com/watch?v=92LK3J0ZykA>

For Expert Learning watch this video:

<https://www.youtube.com/watch?v=nUx2FMRuyGw>

The purpose of the second video is to understand how **experienced Notion users structure workspaces, databases, and workflows.**

Official Notion Documentation

Read the official documentation while completing the practical work:

<https://www.notion.com/help>

Focus particularly on:

- Pages
- Databases
- Database properties
- Views
- Templates
- Integrations

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!

Do not rely only on YouTube videos. Use the official documentation to understand the actual features and workflow.

TASKs:

Create a Notion Workspace

Create a practice workspace containing:

Page 1

Create a task database with:

Property	Type
Task Name	Title
Status	Status
Priority	Select
Due Date	Date
Assignee	Person

Create at least **5 sample tasks**.

n8n + Notion automation

Google Form → n8n → Notion

Use case: Whenever someone submits a form, automatically create a task/record in a Notion database.

Workflow

Google Form

Google Sheets

n8n

Notion

Suppose you have a **Student Registration Form**:

- Name: Ahmad
- Email: ahmad@gmail.com
- Course: AI Automation
- Status: New

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!

When the student submits the form:

n8n automatically creates this in Notion:

Name	Email	Course	Status
Ahmad	ahmad@gmail.com	AI Automation	New

n8n nodes

1. Google Sheets Trigger

- Trigger when a new row is added.

2. Notion

- Operation: **Create a Database Page**
- Select your Student database.
- Map the Google Sheet fields to Notion properties.

Name → Name

Email → Email

Course → Course

Status → Status

Every day you complete in this internship is another building block in your AI career. Stay curious, stay consistent, and remember: the future belongs to those who keep learning. See you tomorrow don't break the streak!
